Shahruddeen Nizamuddeen

Web Developer | Fullstack

Dedicated and enthusiastic Full-Stack Developer with a passion for building responsive and user-friendly web applications. Currently pursuing Software Engineering at Alhikmah University. Strong foundational knowledge in JavaScript, HTML, and CSS, with proficiency in both frontend and backend development. Experienced in React.js and its ecosystem, including Redux for state management and React Router for navigation, as well as Express.js for building robust server-side applications. Skilled in creating reusable components, implementing responsive designs, and developing RESTful APIs. Eager to contribute to dynamic projects, collaborate with experienced developers, and further hone my skills in full-stack development.
